

Crushproof ACT Hose with Wire

Date 7/04

Part No. ACTXXX

Type 1 Hose - Crushproof ACT Hose with Wire

TAB 1-A3

For added rigidity, the Crushproof ACT Hose is available with wire inserted through the entire 11' length. The Crushproof **ACT** Hose with Wire is available in 4" 5" and 6" diameter is designed to be used with larger cars & trucks. If the hose is going to be used in an application where it may be left on the floor and run over, then you would need a hose without the wire helix. If the hose will be installed on a hose reel, the hose will flatten out so the wire helix would be required. If a hose with the wire helix is run over, it will be ruined.

This product should always be used with the proper tailpipe adapter for your application.

Crushproof ACT Hose shown above with wire reinforcement to prevent kinking.
